

PA690

See more

It's never easy to be the successor of something that brought great value to many types of businesses. But the PA690 has what it takes. It will perform every task it's been asked for....only better!

Screen size does matter!

This mobile computer has what it takes to make the difference in your applications. Complete in every important aspect a modern PDA should bring to businesses, unique in features that bring just that little bit of extra. Unlike the industry's standard touch screens of today, PA690 offers a large 3.8 Wide VGA outdoor LCD for the future of tomorrow. This brings massive user benefits in basically any application. Order taking has never been so easy and straightforward. Multi-tasking is not only designated to human beings. PA690 can show the mobile worker both the latest customer data as well as route directions to the point of service, in one single screen view.

Everything a mobile worker needs

Mobile workers need tools to facilitate their daily job. Mobility solutions should reduce the administrative burden, show the shortest route to the customer and be easy to work with. The PA690 covers all of these demands. Whether you want to track and trace your containers in the field or collect reliable meter data. The PA690 encompasses all modern technologies that bring the efficiency you are looking for. With its 802.11 a/b/g Wifi radio and 3.5G modem the PA690 makes sure the mobile worker can perform both inside and outside the four walls. Extra flexibility can be added by connecting third party hardware such as mobile printers by utilizing the Bluetooth connection. Proof of

service or condition has never been taken so clearly because the PA690 has a 5.0 mega pixels camera with autofocus and flash light. Route directions to any ad hoc service requests are handled efficiently by the U-blox 6 GPS with Kickstart and SuperSense technologies.

Earn back your investment... fast!

Merging mobility solutions into your business processes is not only about the initial investment. Choosing the PA690 is a guarantee that the chance on unexpected costs is reduced to a minimum. With its IP65 rating and drop test to concrete of 1.5 meter, the rugged PA690 offers the durability that you expect from an industrial grade PDA. A very rich set of accessories, including a gun grip and car kit solution, adds up to the total amount of efficiency the PA690 brings to your business.

Main features

- Industrial grade PDA
- 3.8 Wide VGA outdoor LCD
- 5.0 mega pixels camera with autofocus and flash
- 1D laser scanner reads all common barcodes (2D imager and RFID reader to be announced)
- All latest wireless technologies such as GPS, Wifi and WWAN
- 2.200mAH battery and an optional 4.000mAH battery
- 1.5m drop test to concrete, IP65
- Rich set of accessories such as 4-slot Ethernet cradle, gun grip, car kit and head set

PA690

Specifications

Operation System

CPU	Intel PXA320 806MHz
Memory	Mobile DDR: 256MB NaND Flash: 512MB
OS	Windows Embedded Handheld 6.5 professional version (phone version) Windows Embedded Handheld 6.5 classic version (non phone version)

Display

3.8" WVGA Transflective color LCD with backlight

Keypad

QWERTY or Numeric keypad

Camera / Photos / Video

5.0 megapixel auto-focus camera with flash
Unitech MPEG-4 video codec

Indicator

LEDs, Vibrator

Reading devices

1D Laser (2D imager, HR-RFID t.b.a.)

Symbologies

1D Laser scanner
UPC-A/E, EAN-8/13, Codabar, Code 11, Code 32, Code 93 (full ASCII), Code 128, Interleaved & Std. 2 of 5, EAN 128, Delta, MSI/Plessey, Toshiba

Communication

USB	USB 1.1 Host & Client
WLAN	IEEE 802.11 a/b/g CCX4-certified
PAN	Bluetooth 2.1 + EDR
WWAN	3.5G Five-bands GSM/GPRS, 850Mhz, 900Mhz, 1800Mhz and 1900Mhz, UMTS WCDMA/HSDPA 50Mhz, 1900Mhz, 2100Mhz/GPRS Edge
GPS	Ublox 6 GPS with KickStart® and SuperSense® technologies

Power Source

Main Battery	8.14 Watt-Hour 3.7V @2200 mAh 14.8 Watt-Hour 3.7V @4000 mAh
--------------	--

Audio

MIC, Speaker, Headset Connector, Receiver

Expansion Slot

Micro SD Support SDHC up to 32GB

Enclosure

Weight	390g with 2200mAh Battery 430g with 4000mAh Battery
Dimension	Approximately 177.66mm x 74.58mm x 40.41mm (Antenna length excluded)

Environmental

Operating temperature	-10°C to 50°C
Storage temperature	-20°C to 60°C
Relative Humidity	5% ~ 95% (non-condensing)
Drop Specification	1.5 meter
Sealing	IP65

Software

Microsoft Visual Studio 2005/2008
Mobile SIP(VOIP)
Auto Installer

12Manage & 12Solutions

In-house developed software to enhance device deployment and remote management. 12[want:to]Solutions including 12Manage improve system reliability, reduce service costs and ensure systems running smoothly.
